LOGAN, CACHE COUNTY, UTAH SATURDAY JULY 31 1915

THIRTEENTH YEAR

PROVIDENCE FOLK ARE GOOD ENTERTAINERS

Give Dance at Pavilion and Serve Luncheon to Those Who Took Part in Pioneer Celebration

When it comes to giving a real sociable entertainment, one in which every person who participates, feels at home and thoroughly enjoys himself, commend us to the citizens of Providence who entertained at the Providence pavilion Wednesday evening for those who took part in the Twenty-fourth of July celebration in Logan. The Logan committees were the guests of honor, with the Providence people who took part in our celebration as the hostesses.

The order of the evening was a dance in the pavilion with the Hyde Park Brass band furnishing the music. During the dancing delicious fruit punch was served. Later in the evening delicious refreshments and luncheon were served in the basement of the pavilion. Speeches were indulged in with the following responding: Dr. S. B. Thatcher, president of the Commercial Club; Mayor P. A. Thatcher, Joseph Quinney Jr., chairman of the arrangement committee on celebration; Robert Anderson manager of the Interurban; and George M. Pickett, president of the Providence Town Board. Fully half the crowd which filled the amusement hall was made up of Logan citizens. The party served the double purpose of showing the kindly neighborly feeling which is manifested between Logan and Providence and also to make us all better acquainted. It is to be hoped that this party will not be the last one of the kind. The thoughts of the one in which the Providence folk entertained at the time the interurban was completed to their town thus bringing us closer together had not entirely died away when the one of Wednesday evening brought back its fond remembrance.

Some of those who attended from Logan were: Mayor and Mrs. P. A. Thatcher Dr. and Mrs. S. B. Thatcher Mr. and Mrs. Joseph Quinney Jr. Mr. and Mrs. James Larsen, Mr. and Mrs. Joseph R. Jensen, Mr. and Mrs. D. R. Thomas, Mr. and Mrs. J. C. Allen, Mr. and Mrs. Ed Hyde, Mr. and Mrs. Karl Farnsworth, Bishop and Mrs. John Q. Adams, Mr. and Mrs. Ed Anderson, Robert Anderson, Prof. and Mrs. F. A. Hinckley, L. H. Peterson, Henry Johnson, Victor Christensen, Mr. and Mrs. Charles Erickson, Miss Eva Wingergren.

CLARKSTON NEWS

Clarkston, July 30.—What might have been a very serious accident but proved to be otherwise happened last Monday afternoon when Bishop John Raveston and his header crew were moving to his farm. The derrick pole struck one of the wires of the electric line, the shock being so great it tore the wheels from the derrick and burned the ground. It caused a number of runaways, but nobody was injured.

Mrs. Lucy Jensen was taken to Logan Friday to receive medical treatment at the Utah Idaho hospital.

Mr. Wood, of Trenton and a member of the school board met with the people of Clarkston last Sunday to discuss the matter of organizing a ninth grade for this school year. He arranged for a meeting with the county school board for August 1. As this is something that is very necessary everybody should attend the meeting.

ST. JOHN'S CHURCH

Sunday, August 1, 11 a. m. Holy communion with sermon by the Rev. Holmes Whitmore of Milwaukee; 8 p. m. evening service and address by the rector, Rev. E. T. Lewis, Rector.

The first of a series of the Mary Francis sewing circle met Wednesday afternoon at the home of Miss Katherine Shambart. Mrs. B. Holley, who is organizing the circle gave instructions during the afternoon. Those present were Helen Bullen, Dot Thatcher, Katherine Preston, Ruth Warrington, Veda Peterson, Helen Thompson, Eva Borkman.

MR. THOMAS TRANSFERRED TO BURLEY

Family Has Been Residents of Logan For Past Three Years. Identified With Sugar Interests

Mr. and Mrs. A. Thomas and family who have been residents of Logan for the past three years, Mr. Thomas having been superintendent at the Logan sugar factory, left yesterday afternoon by automobile for Burley, Idaho, where they will take up their future abode. Mr. Thomas has been transferred to the Burley factory to take a similar position with the sugar interests that he had here.

These people came to Logan from LeGrande, Oregon where they first became identified with the sugar company. When the factory was closed down there, they moved to this city and while here have made some very warm friends, whose best wishes for success follow them to their new home.

MR. GUSTAVESON WILL MAKE HOME IN THIS CITY

Believes Utah Oil and Gas Company Has Chance to Encounter Oil at Shallow Depth

D. H. Gustavson vice president of the Utah Oil and Gas Company, arrived in Logan on Wednesday and announces that he has closed out his interests in California and has come to stay in Logan.

Mr. Gustavson was one of the first men interested in the oil development of Cache Valley and came here early in 1913 and with C. A. Reese and A. M. Smith commenced lands for oil. He stated that he has visited nearly every oil field in America and that the local indications for a Gusher-territory of gas and oil are far greater than any field he has visited. This gentleman is deeply interested in the development of oil here and states he is satisfied that oil will be encountered at a shallow depth.

BOAT INSPECTION SERVICE WILL BE PROBED BY UNITED STATES

Washington, July 27.—A thorough investigation of the steamboat inspection service of the department of commerce, it was learned today, probably will grow out of the Eastland steamship disaster in Chicago. A movement already is on foot in the department for the practical reorganization of the service in preparation of the inauguration of the new seamen's law in November and the disaster will tend to give new force to this work.

With Secretary Redfield in charge of the department's investigation in Chicago, an independent inquiry aside from the routine of the local steamboat inspectors has been started. The secretary proposes to go to the bottom of the matter and the investigation of the entire inspection service which has been going on quietly for some time will be pressed with added vigor.

Within the last two months five local officials have been dropped from the services. As all were under the classified civil service the retirements were only effected after charges had been filed and heard. Of the five retired, three inspectors at New Orleans and Mobile, Alabama were more than 70 years old and two inspectors at Galveston, Texas, were 60 years old. The inspector of hulls at Buffalo, N. Y., submitted his resignation at the request of the secretary at the beginning of this year. He was 82 years old.

The reorganization of which these retirements were a part was developing slowly as the department expected a general administrative shift to follow the seamen's law in the fall. It is probable that the Eastland disaster will hasten the contemplated changes.

James Harris, the young man from Richmond who was badly injured by a mad bull, now at the local hospital, is said to be recovering very nicely from his injuries.

NEXT WAR FOUGHT BY MACHINERY AND MEN OF BRAINS, SAYS DANIELS

THOMAS A. EDISON SECRETARY DANIELS
PHOTO BY AMERICAN PRESS ASSOCIATION

Following a conference between Josephus Daniels, secretary of the navy, and Thomas A. Edison, the nation's foremost inventor, who is to head the new navy board of invention and development, in Mr. Edison's home at Llewellyn Park, N. J., Mr. Daniels said: "Our next war will be fought by machinery and by men of brains. They say we have millions of men and mints of money. But we need more than that. We need machinery and skill. What we want on this advisory board is to bring about a mobilization of brains, a mobilization of genius. I believe in preparedness for war, but I also believe in scientific preparedness, so my idea in organizing this board is, as I say, to bring about a mobilization of the brains and inventive genius of the country. I want to get together the men who have devoted their lives to science and to use their genius and skill for the benefit of the country. I want to help these men to develop their ideas for inventions that will be of service to the country in time of war." The accompanying picture of Mr. Edison and Mr. Daniels was taken at the conference in Mr. Edison's home.

HYDE PARK SCRIBE HAS PLEASANT OUTING AT BEAR LAKE PLEASURE RESORT

Says Crops are not Equal to Cache Valley Crops. Waters of Cub River are Low. Dredges in Bear Lake Valley Building Large Canals.

Hyde Park, July 28.—Having just returned today from a week's outing in Bear Lake county we are unable to tell the readers of The Republican just how the people of Hyde Park celebrated Pioneer day, so a few observations while away may prove of interest to some. July 22 we left Lewiston at 7:30 a. m. bound for Bloomington, Bear Lake county, Idaho. Our route was up Cub river north east of Franklin. At Mapleton we noticed some fine orchards, large fields of excellent grain, alfalfa and timothy, also some well kept gardens. Cub river, or Muddy as it is sometimes called, yet it is a beautiful clear stream, is quite low at present, and farms formerly irrigated by its waters, are now burning up. The road up the canyon is in excellent shape. The three mile dugway just before reaching the summit between Cache and Bear Lake valleys, is one that cost several thousand dollars to build. The upper part runs through a fine grove of timber. Paris canyon is a lovely one. Hundreds of cords of wood can be obtained along the road. There are many small sink holes containing water and hundreds of cattle are in the canyon where excellent feed is found.

A short distance up the canyon, the other side is found a power Montpelier. They are handled by plant from where the Bear Lake people obtain their lights. Near this power plant is a saw mill and a large mountain of phosphates which are now being worked, the phosphates averaging eighty-eight per cent. We saw samples of fine copper and galena ores dug from the hills near Bloomington.

On account of a shortage of water and late frosts the crops in Bear Lake are much lighter than usual, and are not as far along as here in Cache. We noticed three fields of grain cut. The blackbirds and sparrows are doing much damage to the grain. We also noticed however, the potato crop is not blighted as here in Cache.

On July 24th a great many people were at the Fish Haven and Garden City pleasure resorts, where boat riding, bathing, and riding on the merry go round, was the order of the day. The lake is quite low at present. We met quite a number of people from Cache there. At the Fish Haven resort there are about thirty boats. Two large launches carry passengers to and from the hot springs on the east side, and down to the Garden City resort.

MANAGER HORNE PROMISES SOME GOOD PICTURES

Manager John T. Horne of the Consolidated Theater Company has just returned from Salt Lake City where he has just completed arrangements for the showing of Paramount pictures. In these pictures, will be presented such famous stars as Mary Pickford, Hazel Dawn, Margaret Clark, John Barrymore, John Mason, Dustin Farnum, etc., produced under the direction of the Famous Players Film Company. The Lasky Belasco Play Company, Oliver Morosco Photo Play Company. These pictures are as the name paramount signifies, the best on the market today. The first one to appear will be Jim, the Penman, next Wednesday and Thursday at the Lyric theater.

Right to Blockade Defended by Britain

Holds Enemy Must Not Have Access to Market Through Neutral Port

Washington, July 28.—Defense of the right of a belligerent to blockade a neutral port through which an enemy is receiving supplies or attempting to market his own products is the chief argument to be made in the supplemental note Great Britain is preparing in reply to the American protest against the enforcement of the orders in council.

All other issues than that of the blockade of neutral ports, it is learned, will be regarded by the British government as subsidiary and proper for later discussion. Upon recognition by neutral governments of the principle from the British viewpoint depends the ability of a belligerent which has otherwise established control of the seas to profit by the enormous expenditure and sacrifice that made possible the control. The matter is all important in the British view.

Incidentally it is contended by Great Britain in its communication that the execution of these orders in council so far has not resulted in any damage to American trade. According to the British view, that trade has waxed enormously large since the beginning of the war treasury figures showing an increase of \$200,000,000 in exports during the eleven months, while the American ocean freight has grown by 744,000 tons.

The Phoenix Construction Company. We did not go up to the Dipper Dredge as it was a long way up the canal. We went on the large Hydraulic Dredge and found it a wonderful piece of machinery. When this dredge is in good working order it travels about five hundred yards per day; excavating about twelve thousand yards per day. The width of the canal when finished will be 150 feet, with a depth of 10 feet. This is the third season these dredges have been operating and they expect to be at least three years yet before finishing. These dredges run nearly all winter and run night and day. On the Hydraulic Dredge there are usually about thirty men employed. A large electric generator is attached carrying about 250,000 volts, attached to this, and also in the canal is a large hotel where the employees board. At night these dredges are lit up and make a fine site to behold.

Anyone visiting Bear Lake will be amply paid for going to see these dredges at work. Fishing is said to be good in the lake and we proved it to be good in the canal, as we caught quite a number of carp and chubs.

The Hyde Park farmers are very busy cutting and hauling grain and hay. The second crop of alfalfa is quite heavy. The beets are looking fairly well considering the shortage of water.

Lee Brothers left Wednesday with a force of men to head grain on their farm near Oxford.

Several of our young men are at Poverty flat and others at Newton working in the harvest fields.

William Follett had a valuable horse take sick and die very suddenly a few days ago.

WEEK'S NEWS COMING FROM SMITHFIELD

Smithfield, July 30.—The Misses Lola and Lilly Farrell gave a party Thursday evening at the Union hall in honor of the Misses Gladys and Reta Ensign and the Messrs Horace and Dewey Ensign who are visiting at the Farrell home. The hall was beautifully decorated with sweet peas. About fifty guests were present who enjoyed the time in games, luncheon and dancing.

Miss Nellie Pilgrim entertained a number of young people Sunday evening. Those present were the Misses Mable, Ethel and Venice Hillyard, Lillie and Lola Farrell, Gladys and Reta Ensign, Annie Nelson, Glen Toolson, Wendell Merrill, Douglas Miles and James Kid.

S. O. Bennion, president of the Central States mission and family, spent Thursday here, visiting the family of Mr. A. J. Merrill.

Bishop G. Y. Smith and family, Mr. T. Alsop and family are spending the week on the Bear Lake shores. Word has been received from Boise that Mr. and Mrs. Edward Pitcher are the proud parents of a fine baby boy born on the 25th of this month.

Mr. and Mrs. A. B. Chambers attended the carnival at Salt Lake last week.

Both wards will hold M. I. A. conjoint meeting Sunday evening. A good program has been arranged and stake officers will be in attendance.

Mr. and Mrs. Earl Smith of Salt Lake are the guests of Mr. and Mrs. Sylvester Lowe.

Mr. and Mrs. Thomas Farr will move into the home of R. T. Merrill on Main street, the first of the month.

Mrs. Minord of Chicago, the mother of Mrs. Jarvis, who has been visiting here the past month returned home Monday.

Mr. Fritz Jensen has moved in the building on the east side of Main street owned by E. R. Miles and will continue in the restaurant business.

COMING TO LYRIC, JIM THE PENMAN

Leading Man and Woman of Two Current Dramatic Successes Support John Mason in His First Screen Portrayal as "Jim the Penman"

For the first time in the history of feature film productions, the leading man and woman of two contemporary Broadway successes appear in the supporting cast of a prominent legitimate star in the film version of a celebrated play. This unusual combination of stellar talent is included in the Famous Players Film Company's five part screen adaptation of the international dramatic success, "Jim the Penman," by Sir Charles L. Young, the current Paramount release at the Lyric Wednesday and Thursday. The two distinguished members of the cast in support of this star are Marguerite Leslie, leading woman of the current stage triumph, "Outcast," and Frederick Perry, leading man of the dramatic sensation, "On Trial."

When John Mason announced his intention of making his first appearance in motion pictures, in the renowned role of "Jim Ralston," whose clever pen wrote the success of Sir Young's greatest play, the news was received in theatrical and motion picture circles with some surprise, as Mr. Mason had previously refused many offers from leading film concerns and his acceptance of the Famous Players contract was judged as another indication of the esteem in which that concern is held by the foremost artists on the legitimate stage.

The Famous Players have greatly extended the interest of this notable drama by studied amplification of the stronger element of the plot that the wider scope of the screen made possible and John Mason portrays a more interesting Jim Ralston than has ever been offered in any of the stage presentations of the famed character.
